## Namaste!

Thank you for purchasing our newest Specially Designed Caller ID Phone System with Super Clarity Voice Listening and Talking.

This user's manual is designed to familiarize you with your new phone. Please read it carefully before operating the phone, and follow these basic safety precautions while using it to reduce the damage to the phone and avoid the risk of fire, electric shock and injury to persons.

Note: Due to continuous Product development, all features and specifications are subject to change without prior notice.

## Important Safety Precautions

Thank you for purchasing our newest Caller ID phone with voice talking. This user's manual is designed to familiarize you with your new phone. Please read it carefully before operating the phone, and follow these basic safety precautions during using to reduce the damage to the phone and avoid the risk of fire, electric shock and injury to persons:

1. The phone should be placed in cool, dry, ventilated and non-toxic places, etc.
2. Keep your phone away from moisture, dust, liquids and steam; if it gets wet or dusty, wipe it immediately.
3. Use damp soft cloth for cleaning occasionally to keep it looking new; don't use liquid cleaners or aerosol cleaners. Also make sure to disconnect the telephone line before cleaning.
4. Do not expose LCD in the sun for long time; and if you won't use the phone for more than a month, remove the batteries because they may leak and damage the phone.
5. Never
- Touch plug contacts with sharp or metallic objects.
- Move and operate the phone during an electrical storm, there may be a remote risk of electronic shock from lightning and thunder.
- Open the phone yourself, modifying or tampering the internal components can cause malfunction and might invalidate the warranty. If your phone is not performing as it should, take it to your local service centre for repair.
6. Other Important Tips
- Caller ID function will work only after you have subscribed for the service in the local telecom company.
- lease answer the call after the phone rings twice, otherwise there are chances that Caller ID may not come in your phone.

## FREQUENTLY ASKED QUESTIONS

**1. NO TONE**
   Please check all the lines connections, and ensure all the connections are proper.

**2. CAN NOT MAKE/DIAL A CALL**
   Please check the lock position and ensure Keys are unlocked.

**3. NOISE**
   Please check if the line cord or wall plug is moistured.

**4. ONLY GIVING ONE RING WHILE STILL CAN MAKE A CALL**
   Please check the line connection, check if too many phones are connected in the same line, or the wall socket or Tel Line cord is moistured.

**5. CANNOT DISPLAY CALLER ID**
a. Be sure that you have applied this service from a Telecom  service provider
b. Check if the battery has not drained and it has power.
c. Check if an apparatus is connected between unit and Telephone line. (Example micro filters used in an ADSL line)

If the unit still does not work properly, disconnect all the telephone cords, remove the Batteries and after 5 minutes reload batteries by inserting the telephone line. The unit will get a reset. Start using the unit.

## Answering Calls

1.  When the unit rings, lift handset or press Hands free (icon)-button to answer.
